UNITED NATIONS SYSTEM REGULAR AND EXTRABUDGETARY TECHNICAL COOPERATION EXPENDITURES

Information on United Nations system regular and extrabudgetary technical cooperation expenditures in 1992 financed from sources other than UNDP

Report of the Administrator

Addendum

NOTE ON THE DATA

1. By its decision 81/34 of 27 June 1981, the Governing Council requested the Administrator to continue to provide data on the magnitude and composition of technical cooperation activities funded by organizations of the United Nations system other than the United Nations Development Programme (UNDP). The present report fulfills this responsibility for 1992. Besides data on agency regular and extrabudgetary expenditures/contributions, the report also contains, for completeness, data on UNDP, the United Nations Children's Fund (UNICEF), the World Food Programme (WFP), and data on technical cooperation expenditure by the World Bank and the International Development Association (IDA).

2. As in document DP/1990/74, the new definition for non-UNDP resources proposed in document DP/1989/60 has been adopted in this report. Essentially, the former definition of non-UNDP resources has been adjusted to exclude expenditures against UNDP-administered funds since such expenditures are obviously controlled and disbursed by UNDP and are thus technical cooperation expenditures financed by UNDP. In document DP/1990/74, existing data were modified to conform with this new definition for the period 1980-1989.

3. The present report is based on data supplied by participating and executing agencies, including the World Bank/IDA. The raw data have been checked for consistency and accuracy, classified, aggregated and are presented in tables 1 to 10. The tables are arranged in a specific order: tables 1 through 7 are concerned with technical cooperation expenditures; tables 8 and 9 record contributions; and table 10 summarizes operational expenditures for that portion of the United Nations system covered by the report. In more detail, table 1 is intended as a summary, by agency, of technical cooperation expenditures by agencies, including UNFPA, and UNDP (central resources and administered funds) while table 2 shows the same data but distributed by sectors. Table 3 relates specifically to the traditional agencies; that is, UNFPA is excluded. It gives the breakdown of regular and extrabudgetary expenditures by sector and sources of funds. These sources are: regular budget (A), United Nations system extrabudgetary sources other than UNDP (B1), non-United Nations system multilateral sources (B2), bilateral sources chanelled through the United Nations system (C1), and unilateral "self-supporting" sources (C2).

4. Tables 4 through 6 amplify the sources of table 3. More specifically, table 4 breaks down regular budget expenditures (A) down by country and agencies. The grand total of table 4 is the same as that shown in the total column of line A of table 3 (Note that figures have been rounded). Table 5 contains the distribution of expenditures stemming from United Nations system other than UNDP (B1) by country and agencies. The total in this table agrees with that shown in the total column of line B1 of table 3. Table 6 is concerned with expenditures funded from non-United Nations system multilateral sources (B2), also classified by country and agency. Again, the total of

this table is the same as that shown in the total column of line B2 of table 3. The country-agency breakdown of bilateral resources chanelled through the United Nations system (C1) is given in table 7. Note that the total of this table should agree with that in the total column, line C1, of table 3. Finally, the country-agency distribution of unilateral expenditure (C2) is shown by the final column of table 10. Again, the total of this table is the same as that in line C2 of table 3.

5. Table 8 relates to contributions received for the funding of the expenditures of the traditional agencies, organized under the following headings: unilateral and bilateral sources (country or territory and non-governmental organizations) and multilateral sources (United Nations system and non-United Nations system). Contributions received by agencies to fund self-supporting technical cooperation expenditures are presented in table 9. Finally, table 10 consolidates expenditures by agencies, including UNDP (central and administered funds), UNFPA, UNICEF, WFP and the World Bank/IDA so as to present a quick view of operational expenditures flowing through the United Nations system during 1991. The table, it should be noted, does not show total operational assistance since data on the expenditure (primarily operational) of some other agencies are not included.

6. There are four cautionary notes to be heeded in referring to the data in the present annex. The first is related to the budget period of agencies. All agencies operate on an annual budget with the exception of WHO and UNICEF, which have a biennial budgeting horizon. However, to satisfy the annual frequency of the present report, both UNICEF and WHO submit estimates for the first year of each budget period and at the end of the biennium a consolidated financial statement is submitted. For UNICEF, no special problem exists because expenditure data are still produced on an annual basis. For WHO, however, a difficult situation arises: there is no way of knowing exactly how much each agency spent in each year of the biennium. The procedure adopted in the report is not to modify the estimates submitted for the first year. Indeed, there is no practical way of doing this since (a) the report for that year has already been finalized and (b) the statistical annex of the report, which contain disaggregated data in some detail, has a coverage of only one year. Data for the final year of the biennium are arrived at by dividing the entires in consolidated statement by two. This means, therefore, that both regular and extrabudgetary expenditures for both years of the biennium are the same.

7. Final data for WHO for the biennium 1990-1991 are available at the time of preparing the present report. The modified total expenditure data for these two years are shown below. Clearly, the revised expenditure for both years are very different. One immediate result of this is to change the time profile of expenditure for the period 1990-1992 in that uncharacteristic rates of growth emerge from the data. This point should be borne in mind for the rest of the report.

8. As will be obvious, the distribution of WHO's extrabudgetary expenditures also changes as a consequence of this revison. The level of extrabudgetary expenditure, by category, is given below. Note that the distribtion is the same for both 1990 and 1991. This is a direct consequence of the principle of equal division noted above.

9. The second point to be heeded concerns the type of expenditure data used by the report. Only programme expenditure data are reported. That is, adminsitrative and support costs are excluded. In other words, the report does not seek to document total expenditure of the organizations/agencies covered. It should be noted, however, that while it is normal for agencies to report expenditure net of support costs or administrative expenses, WHO and the International Maritime Organization (IMO) do not adhere to this procedure. These agencies claim that, given the complexities involved, it is difficult to separate support costs. Thirdly, for the second year, ECA has advised that its unilateral "self-supporting" contributions constitute, in effect, a pooled fund, representing the United Nations Trust Fund for African Development (UNTFAD). In view of the pool accounting nature of the resources, it is difficult to identify contributions of any specific country intended to fund projects only in that particular country. In short, in this case the term "self-supporting" contributions/expenditure deviates from its normal meaning. Finally, data reported by the United Nations Educational, Scientific and Cultural organization (UNESCO) under its regular budget expenditure represent expenditure incurred under that organization's participation programme, a practice which began in 1982.

a/ For ACC programme classification categories, see table 2 of document DP/1993/58.
b/ A - Regular budget.
B1 - Funded by United Nations system sources other than UNDP but including UNFPA.
B2 - Non-United Nations system multilateral sources.
C1 - Bilateral resources channelled through the United Nations system.
C2 - Unilaterally financed "self-supporting" expenditures.
c/ Including expenditures by the United Nations Office for Financial Services for UNFPA.
d/ Representing expenditures by OPS, UNRFNRE, UNV, UNFSSTD and UNSO.
e/ See footnote a/, table 4.
f/ Including support costs.
g/ See footnote a/, table 1.

Note to table 3

This is an overall summary table of non-UNDP financed technical cooperation expenditures. The right-hand column (labeled "Agency") shows the distribution of non-financed technical cooperation expenditure by budget source (A, B1, B2, C1 and C2). The sectoral amounts cover funding to each agency and budget source can be located quickly by plotting the appropriate grid. For a more detailed breakdown of each budget source, see table 4 through 7.

a/ Comprising data contained in table 4. Footnotes c/ through g/ of this table are included under the appropriate regional commissions and the line entitled 'interregional'. Finally, data from IMO of $1,527,000 and of $5,137,000 from WIPO, for which no breakdown were provided, have been included under footnote h/.

b/ Comprising the sum of the total amounts contained in tables 5 - 7 less the amounts for UNFPA. Expenditure data for WIPO for which no breakdown by country was available have been included under "Other Agencies". The difference between this column and the column entitled "Funded by extrabudgetary sources other than UNDP, UNFPA and UNDP-administered funds" is that the latter includes "self-supporting expenditures", which appears as a separate column in this table.

c/ Including expenditures against IPF, SPR, SMF/LDC, SIS, cost-sharing and trust funds established by the Administrator, where applicable. Government cash counterpart contribution of $10 million during 1991 is excluded.

d/ The table showing breakdown by agency may be obtained on request from UNDP.
